

Coaching Services

The guidance you need, when you need it,
from experts you can trust

We all need a helping hand sometimes. Collibra's Coaching Services is here to help you realize greater value, faster - without a significant time commitment. By working with our experts, you'll uncover new possibilities and solve critical challenges while gaining best-practice guidance and hands-on help that can unlock your hidden potential.

With over 50 topics to choose from, all delivered by top Collibra experts, you're sure to find a session that meets your needs.

Expand your team's skills, knowledge, and confidence to do more with your data

Envision new possibilities and go beyond what's just out of the box

Troubleshoot complex configurations and customizations

How can you access Collibra Coaching?

First, you'll need Coaching Credits, which can be used in exchange for individual Coaching sessions or Enhanced Coaching. Coaching Credits can be purchased individually or in bundles for convenience and savings.

Bundles

Silver 24 credits	Gold 48 credits	Platinum 72 credits
-----------------------------	---------------------------	-------------------------------

Then booking is as easy as can be on our [coaching](#) dashboard. Simply select the session that's right for you and schedule with a Coach instantly.

To continue the conversation with your Coach, it's easy to follow up. Simply go to the dashboard and select the session from the My Account tab.

Collibra helps our customers do more with trusted data. The Collibra Platform brings flexible governance, continuous quality and built-in privacy to the world's leading brands.

Enhanced Coaching

Need more time with your coach? With our Enhanced Coaching program, you can leverage 8, 16, or 24 coaching credits, depending on complexity, to work with a dedicated Architect on a variety of scoped activities. Free scoping sessions by category are available to those with **8 or more** available credits and **more than 30 days left** on their coaching contract.

Enhanced Coaching project examples

Project example	
Install Edge site	Asset model design
Migrate a schema from a data source	Metamodel design
Data source ETL & BI connections	Custom dashboard
Migrate from lineage harvester	Latest UI rollout & adoption planning
File-based ETL or Custom lineage	Assessments
Output module application	DQ dataset configuration

How to get started with Enhanced Coaching

1. Schedule a free ½ hour scoping call via the [Coaching dashboard](#).
2. After the scoping call, we will communicate the credits required and request approval to proceed.
3. An architect is assigned and they will provide their availability for the initial call.
